## PROFESSIONAL SUMMARY

6th-semester Computer Science & Engineering undergraduate specializing in cybersecurity research and full-stack web application development. Demonstrates a strong track record of applying secure coding principles, publishing-focused academic research, and proven leadership in financial and logistical operations for large-scale community initiatives.

## EDUCATION

|                                                               |                      |
|---------------------------------------------------------------|----------------------|
| International Islamic University Chittagong (IIUC)            | Expected Dec 2027    |
| Bachelor of Science in Computer Science and Engineering (CSE) | 6th Semester Student |
| Chattogram City Corporation Kaiser-Niloufer College           | 2021                 |
| Higher Secondary Certificate (HSC)                            | GPA: 5.00 / 5.00     |
| Chittagong Municipal Model High School                        | 2019                 |
| Secondary School Certificate (SSC)                            | GPA: 4.61 / 5.00     |

## RESEARCH EXPERIENCE & IMPACT

|                                                    |                |
|----------------------------------------------------|----------------|
| Undergraduate Cybersecurity Researcher             | 2025 – Present |
| Department of Computer Science & Engineering, IIUC |                |

- Original Research & Analysis:** Investigating threat vectors, application security vulnerabilities, and network defense mechanisms to produce publishable academic literature.
- Publication-Ready Documentation:** Designing mathematical models, algorithm diagrams, and structured methodologies in LaTeX/Overleaf, ensuring strict compliance with IEEE and international publication standards.
- Peer Collaboration:** Synthesizing domain literature and analyzing security protocols to optimize data models and research frameworks for upcoming peer-reviewed submissions.

## TECHNICAL PROJECTS & SOFTWARE ENGINEERING

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |                  |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------|
| Full-Stack Web Development Projects                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | MERN Stack / SQL |
| <ul style="list-style-type: none"><li><b>Full-Stack Architecture:</b> Engineered responsive web applications utilizing React.js on the frontend and Node.js/Express.js on the backend to optimize client-server communication.</li><li><b>Data Modeling &amp; Persistence:</b> Implemented structured relational schemas in SQL and dynamic collections in MongoDB, ensuring secure authentication and data integrity.</li><li><b>Version Control &amp; Workflow:</b> Maintained structured Git workflows and repositories on GitHub, facilitating code reviews and modular application architecture.</li></ul> |                  |

## LEADERSHIP, FINANCIAL MANAGEMENT & COMMUNITY IMPACT

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |                               |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------|
| Lead Financial Officer & Event Coordinator                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | Pujo & Local Community Events |
| <ul style="list-style-type: none"><li><b>Financial Leadership &amp; Cashiering:</b> Directed budget allocation, cash flow tracking, and financial record-keeping with 100% accounting accuracy as lead cashier during Pujo and major local events.</li><li><b>Team Management &amp; Operational Delegation:</b> Led and managed teams of local youth volunteers, structuring work schedules and assigning venue responsibilities for smooth event execution.</li><li><b>Event Logistics &amp; Stakeholder Coordination:</b> Oversee security protocols, vendor agreements, and crowd management to ensure safety and success during high-attendance community celebrations.</li></ul> |                               |

## TECHNICAL SKILLS & LANGUAGES

|                       |                                                                              |
|-----------------------|------------------------------------------------------------------------------|
| Research Domain:      | Cybersecurity, Threat Analysis, Vulnerability Assessment, Network Protocols  |
| Frontend Stack:       | HTML5, CSS3, JavaScript (ES6+), React.js                                     |
| Backend & Databases:  | Node.js, Express.js, MongoDB, SQL                                            |
| Tools & Environments: | Git, GitHub, LaTeX, Overleaf, VS Code                                        |
| Problem Solving:      | Active practitioner on Codeforces focusing on data structures and algorithms |
| Languages:            | Bengali (Native), English (Professional & Academic Proficiency)              |
